

M. ATEEQ

Python/AI Developer

P 03254938060

E contact@ateeq.pk

A Lahore, Pakistan

W <https://ateeq.pk>

OBJECTIVE

I'm a Python/AI Developer with a passion for working with AI models, including OpenAI and other LLMs. I have good Knowledge in fine-tuning LLMs and creating APIs using the Django Rest Framework and Deploying them using cPanel.

CERTIFICATION

Mastering OpenAI Python API
[udemy.com] – [13 Hours]

Open-Source Models with Hugging Face
[deeplearning.ai] – [Short Course]

Python Development
[PNY Trainings] – [2 Months]

EXPERIENCE

Working with Different Natural Language Projects Such as Title Generator, Description Generator, Paraphraser, Sentiment Analysis and Text Classification Problems by fine-tuning different open-source models (**T5**, **Bert**, **GPT-2**, **Mistral**) with **Transformers** Library.

FINAL YEAR PROJECT

AI Text Merger: bit.ly/project-dem0

For advancing the Content Writing Process by Addressing Drawbacks Found in Other Tools like Article Rewriter & AI Article Writers. Developed by fine-tuning OpenAI's + T5 model and deployed with Django Rest Framework.

AIM

I am aiming to secure an position as a Python/Generative AI developer with a reputable organization to enhance my skills and foster career advancement.

EDUCATION

Bachelor of Science in Computer Science

[2020 - 2024]

University of Engineering & Technology, Lahore

Current CGPA: 3.02

Completed 8th Semester, awaiting results.

KEY SKILLS

- Python, OOP
- Software Engineering
- Generative AI
- Open-Source LLMs

OTHER SKILLS

- Django Rest Framework Basics
- Transformers Library
- WordPress
- Blogging: xnrt.com
- Deploy API with cPanel.

FUTURE LEARNING PLAN

- LongChain
- LlamaIndex
